

# KAPITZKE PIPESAVERS

Specifically design to integrate with the **PipeSafe Tubular Handling Cassette** to improve consumable stability during transport. Made from high grade durable materials to ensure each tubing or casing joint arrives to the destination damage free. **PipeSaver's** are engineered to fit tightly between casing and tubulars to provide security, reduced uncontrolled movement and vibration wear. With **PipeSafe's** patented **PipeSavers** design each unit can be supplied in any casing or tubular sizes. By integrating the 4 corners dual options are manufactured into one unit.

- LIGHT WEIGHT DESIGN
- MADE WITH RECYCLED RUBBERS
- MULTI-PURPOSE FUNCTIONS
- DUAL SIDED SIZING FOR PIPES
- PREVENTS TUBING TRANSPORT WEAR
- PREVENTS CASING TRANSPORT WEAR
- FLAT OPTION FOR ALTERNATIVE USES
- TOUGH & DURABLE
- SAFER THAN TIMBER
- LIGHTER THAN TIMBER
- REDUCED LOAD MOVEMENTS
- INCREASE LOAD STABILITY
- REDUCES UNCONTROLLED MOVEMENTS
- MADE TO SUIT PIPESAFE SYSTEMS
- CAN BE MADE TO SUIT CUSTOM OPTIONS
- REDUCES RISK TO ROAD USERS
